Dear Northwoods Owners,

The Town of Vail has a new law that requires recycling at all properties in Vail, but it's not all bad news. Trash is expensive to haul and dump so if we reduce the amount of waste being hauled away we reduce this cost.

Shortly you will see one dumpster from each garage change to a recycling dumpster. It will have a yellow band at the top or yellow lids. The recycling does not need to be sorted but all can be placed in the same container, cardboard, glass, cans, papers, plastic bottles and plastic containers.

The things you can't put in the new bin are things contaminated with food, like food covered Pizza boxes, plastic bags, plastic wraps or foam packaging materials. Please be careful about this as if they find these items in the recycling they will charge us extra to dump the full dumpster.

Most importantly, bags of recycling materials need to be emptied into the recycling container and the bag placed in the trash container beside.

Please remember that recycling needs to be clean and ask everyone to flatten out cardboard boxes. Everyone needs to be on board with this in order to make it work well for all of us.

Thank you,

Respectfully,
Colette & Patrick.
